DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

Applicants' amendments, filed on 08/24/2006, with respect to claims 1-2 and 4-11 have been fully considered and are persuasive. The 35U.S.C.103 rejections have been withdrawn. None of the previously cited reference teaches the Claims 1-2 and 4-11.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment had been given in a telephone interview with Randi Karpinia on 9/28/2006.

The application has been amended as follows:

Claims 3 and 12 have been canceled.

Allowable Subject Matter

3. Claims 1-2 and 4-11 are allowed.

Examiner's Statement of Reasons for Allowance

4. The following is a statement of reasons for the indication of allowable subject matter: The prior art along or in combination fails to teach or make obvious the following limitations:

“updating the presence table upon receipt of an IGMP join message, wherein the IGMP message comprises information about a multicast group that a first subscriber is joining; determining by consulting the presence table whether there is at least one wireless subscriber unit belonging to the particular multicast group and whether the at least one wireless subscriber unit is currently associated with the access point; and rebroadcasting the multicast packet over a wireless segment only if there is at least one wireless subscriber unit belonging to the particular multicast group and associated with the access point” as recited in the independent claim 1, and

“rebroadcasting the multicast packet over a wired segment; and rebroadcasting the multicast packet over a wireless segment if the multicast packet signals an automatic rebroadcast of the multicast packet over the wireless segment; otherwise, rebroadcasting the multicast packet over the wireless segment only if there is at least one wireless subscriber unit belonging to the particular multicast group and associated with the access point that did not originate the multicast packet determined by consulting the storage medium” as recited in the independent claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
